Q.No.: 2. Discuss the reasons for rise in social media addiction of youths in India. Why it can be problematic for India?

Social Media is important to meet this modern era but the use of social media is like a knife, so that it can be use as -ve (negative) or positive in respect.

There are various reason which lead to rise in social media addiction in youths of India

Reasons

- Loneliness

- Wasting Games (pass time)
- Covid-19 Pandemic

The main reason is leisure time in covid-19 pandemic as the long period of pandemic leads to great involvement of youths in various social media platforms to connect with their family members, friends, colleagues etc. by using platforms like Instagram, Snapchat, whatsapp etc.

He was firmly committed to his principles despite being attacked and castigated for them. Real life events of Gandhi's life have helped me hold onto my convictions. Gandhi's teaching, regarding non violence & satyagrah helped me take high road instead of stooping down to violent action.

On multiple occasions, Gandhi's willingness to test his own commitment to his personally held ethical principle has shown me powers of determination.
